This Nissan Qashqai 2022 2.0L XV Smart Edition was first registered in August 2023 and has only run 25,000 kilometers, and is in excellent condition. Compared with cars of the same level, it has more space and more exquisite interior. Moreover, this car is personally owned, maintained by a 4S shop throughout the process, has no off-road history, and supports third-party testing, so you can buy it with confidence. Practical configurations such as car networking, voice recognition control, and reversing images are also readily available. The engine and gearbox run well, the chassis is compact, and there is no oil leakage. Friends who like it must not miss it, welcome to Baoding Yingfei Second-hand Car to see the car and test drive!
